## Summary

MERN Stack Developer with 2.7+ years of experience in building responsive, scalable web applications using React.js, Next.js, Node.js, and Express.js. Skilled in modern UI libraries like Tailwind CSS, Ant Design, and Bootstrap, with strong expertise in state management using Redux, Context API, and React Query. Experienced in REST API integration, performance optimization, and SEO best practices. Passionate about clean code, user-centric design, and continuous learning.

## Technical Skills

**Frontend**: React.js, Next.js, Redux, React Query, Tailwind CSS, Ant Design, Bootstrap, HTML5, CSS3, JavaScript
**Backend**: Node.js, Express.js
**Database**: MongoDB
**Tools & Others**: GitHub, Vercel, ABP Boilerplate (React), Recharts, Formik, i18n, REST APIs
**Soft Skills**: Problem Solving, Team Collaboration, UI/UX Focused Development

## Professional Experience

MERN Stack Developer
Averlabz – Lahore | Sep 2022 – Present
- Developed and maintained scalable web applications using React.js, Next.js, and Node.js.
- Led frontend architecture using Tailwind CSS, Redux, and Ant Design for responsive UIs.
- Integrated RESTful APIs and handled complex state management with Context API and React Query.
- Focused on optimizing performance, SEO, and fixing critical front-end issues for better UX.
- Collaborated closely with cross-functional teams to deliver high-quality, maintainable code.

## Projects Highlights

- NamKart – E-commerce Platform | [URL](URL)

Built frontend using Next.js, TypeScript, Tailwind CSS, React Query, Formik. Integrated APIs for a fast, responsive user experience.

- Tangle Store & Landing Page | [fashion Layout](fashion Layout) | [food Layout](food Layout) | [info page](info page)

Developed multilingual, high-performance e-commerce UI with Next.js, Tailwind, and React Query.

- Mubaader Realtor – Real Estate Platform | [URL](URL)

Led development of a real estate platform using Next.js for SSR and SEO optimization. Built a responsive UI with Tailwind CSS and implemented multilingual support (Arabic & English) using i18next. Enhanced data handling and performance with React Query for smooth, dynamic user interactions.

- Embrace – Admin Panel (Health App)

Used ABP Boilerplate React and Recharts for analytics dashboard. Integrated with .NET backend for data handling.

- Noticebord – Admin Panel

Built campaign management dashboard with CRUD, React JS, and ABP Boilerplate. Worked with React Native mobile app integration.

- HNL – Admin Panel (Industrial Management)

Contributed to complex modules like work order generation, attendance, and role-based access.

- E-commerce Backend (Node.js & Express & Mongo DB)

Built complete backend: authentication, category/product management, wishlist, cart & checkout. Deployed app on Vercel for scalability.

## Education

Virtual University                                                      Feb 2016 - Jan 2021

BSIT

GPA: 3.1

## Languages
- English (Intermediate)
- Urdu (Native)
